# How **the ABC** Curriculum Works

The curriculum bundle contains everything you need for a weekly lessons, centers, interventions, and extra practice.

Letters are broken into groups that best align with SOR (Science of Reading). Each week covers 3-4 letters. There are 7 weeks that introduce new letters, review previously taught letters, and reinforce skills.

## Three Files for Each Week:

Each of the 7 weeks include three files: Introduction, Centers, and Extra Practice.

Introduction: these lessons can be used for whole group, small group, or centers. Introduce letters, letter sounds, letter formation, and blending.

Centers: these are hands on and include letter formation and fine-motor skills.

Extra Practice: printable worksheets for students to use as morning work, homework, or extra practice as needed.
